## Directing Mission Statement

---

A Queer, Latino, Storyteller, Activist, Theatrical Playwright, Director, and Actor with over 10 years of experience working both on and off stage with various levels of production. I embolden myself to lead and direct with a conscious effort to be collaborative, to be celebratory of this art form, and to work with the knowledge that what we do as theater artists transcends beyond our stage. I create art that is not only inclusive to characters so rarely seen, but strives for their stories to be universally felt.
